PROFESSIONAL SUMMARY

Software Engineer with 2+ years across blockchain infrastructure, cloud operations, and full stack development. Operate the AWS, Kubernetes, Terraform, and CI/CD systems behind production blockchain nodes, with a background shipping applications in React, Next.js, TypeScript, and C# .NET.

TECHNICAL SKILLS

Cloud & Infrastructure: AWS, Kubernetes, Docker, Terraform, Linux, Nginx, Bash, Infrastructure as Code

DevOps & Monitoring: CI/CD, GitHub Actions, Git, Prometheus, Grafana, Reliability Engineering

Blockchain: Solidity, Smart Contracts, Blockchain Node Operations, Distributed Systems

Languages: TypeScript, JavaScript, C#, Python, PHP, Go, SQL, HTML5, CSS3

Frameworks: React, Next.js, Redux, Tailwind CSS, .NET, Node.js, Express.js, Laravel, Django, REST APIs

Databases & Tools: PostgreSQL, MySQL, MongoDB, Redis, Git, Postman

PROFESSIONAL EXPERIENCE

Blockchain Infrastructure Engineer, Stealth Startup

Remote | 2026 - Present

- Manage distributed validator infrastructure across ~10 nodes with automated deploys and upgrades.
- Design, deploy, and operate AWS infrastructure for distributed systems and blockchain nodes.
- Run Docker and Kubernetes workloads; provision IaC with Terraform and CI/CD in GitHub Actions.
- Implement monitoring and alerting with Prometheus and Grafana for proactive reliability at scale.

Junior Software Engineer / Full Stack Developer, Maxware Techs

Hyderabad, PK | Nov 2024 - 2026

- Built and maintained C# / .NET backend systems and APIs for a US-based logistics company.
- Delivered an Invoice Management System and shipment tracking platform with auth and reporting.
- Built a single-vendor e-commerce app end to end plus responsive React / TypeScript interfaces.

Backend Developer Intern (MERN Stack), Elite Tech Solutions

Nawabshah, PK | Aug - Dec 2025

- Built backend services and REST APIs with Node.js and Express.js; optimized schemas and queries.
- Implemented authentication and authorization for secure endpoints; supported frontend integration.

Programming Tutor, Preply

Remote | Jun 2025 - Present

- Teach JavaScript, Python, and Go to international students in one-on-one sessions across time zones.

PROJECTS

ShipMajor - Logistics Management Platform (C# .NET, MySQL)

- Logistics platform with shipment tracking, invoicing, and reporting on C# .NET and MySQL.

DataHarvest - AI-Powered Data Harvesting System (OpenAI, MERN, Web Scraping)

- AI data harvesting system using OpenAI APIs and MERN with automated web scraping pipelines.

EDUCATION

BS in Computer Science & Information Technology

Sep 2022 - Sep 2026

Quaid-e-Awam University of Engineering, Science & Technology (QUEST), Nawabshah, Pakistan

CERTIFICATIONS & LANGUAGES

Certifications: freeCodeCamp - Front End Libraries (2025), Responsive Web Design (2024) • PITP - Python (2025)

Languages: English - Professional Working • Urdu - Full Professional • Sindhi - Native
